

EDEN BED / FRAME: The headboard is constructed with solid Birch wood and reinforced with plywood. Side and end rails are constructed with plywood and covered with polyurethane foam and fabric lining. Slats are made of Beech wood. **STORAGE/LIFT SYSTEM:** Opening and closing of the lift mechanism is made possible via a gas cylinder support system, capable of opening the slat to an elevated parallel position for easy storage access. The storage compartment itself is comprised of a melamine base board. **LEGS:** Black plastic (ABS) legs are inset. **MATTRESS:** Recommended mattress thickness is less than 25cm. Mattress is not included. **UPHOLSTERY:** Available in all Fabric, all Leather, or Fabric and Leather combination upholstery. All covers are removable via Velcro.
